PROFESSIONAL SUMMARY

Full-stack developer (React, TypeScript, Node.js, PostgreSQL) with a B.Sc. in Local Government and Development Studies. Work experience includes local government liaison and records management during NYSC, office administration, and teaching basic computer skills. Built a school result management system and a secure authentication system, and completed Harvard's CS50P (Introduction to Programming with Python). Looking for roles in software development, public administration, or organization development where both backgrounds apply.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, TanStack Query, Tailwind CSS

Backend: Node.js, Express.js, Python, REST API design, JWT authentication

Database: PostgreSQL

Tools: Git, GitHub, Figma, Puppeteer, Microsoft Office Suite

TECHNICAL PROJECTS

School Result Management System (Full-Stack)

React, TypeScript, Node.js, Express, PostgreSQL, TanStack Query, Tailwind CSS, JWT, Puppeteer

- Built a REST API in Express and TypeScript around a role-based result workflow (draft, submitted, approved, published), with audit logging across academic terms.
- Designed a normalized PostgreSQL schema linking students, subjects, assessments, classes, terms, and departments to support result computation across terms.
- Implemented JWT authentication with HttpOnly refresh-token cookies, SHA-256 token hashing, and token rotation with reuse detection for teacher and admin sessions.
- Added bulk result import from CSV and Excel with admission-number validation, reducing manual data entry for large student records.
- Built the React frontend with paginated student and result lists and teacher profile views, using TanStack Query for data fetching.
- Created role-based dashboards: teachers submit results for approval; admins review, approve, and publish.
- Implemented one-click PDF report card downloads generated with Puppeteer for students and parents.

Secure Full-Stack Authentication System

Node.js, Express.js, PostgreSQL, JWT, bcrypt, ES Modules

- Built user registration, bcrypt password hashing, and JWT session management using HTTP-only cookies.
- Designed a PostgreSQL schema and used parameterized queries to prevent SQL injection and protect stored credentials.

PROFESSIONAL EXPERIENCE

Corps Liaison Officer (NYSC) 2023 – 2024

Ifo Local Government, Ogun State

- Acted as the link between the Local Government Inspector and 50+ corps members, passing on directives and following up on grievances.
- Kept documentation and administrative records for corps member deployments, which made records easier to retrieve and reduced processing delays.
- Organized weekly meetings and Community Development Service (CDS) activities, and coordinated teams to deliver 6 community projects during the service year.

Basic Computer Instructor Volunteer / Freelance

- Taught introductory computer literacy to beginner-level learners.
- Prepared customized learning materials to help students understand and use digital tools with confidence.

Office Assistant 2016 – 2017
Virgo Company, Ibadan

- Handled daily office administration, including filing, scheduling, and correspondence, for a multi-department organization.
- Maintained accurate records and documentation systems that were audit-ready and easy to search.

EDUCATION

B.Sc. Local Government and Development Studies 2017 – 2022
Obafemi Awolowo University | Second Class Honours (Upper Division)

National Diploma, Office Technology and Management 2012 – 2015
Federal Polytechnic Ede | Graduated with Distinction

CERTIFICATIONS

CS50's Introduction to Programming with Python (CS50P) 2026
Harvard University (CS50) | Instructor: David J. Malan | Nine problem sets and a final project
Verify: cs50.harvard.edu/certificates/8c84796c-2b36-4fdf-b296-d62bd98751fc

VOLUNTEER EXPERIENCE

- Volunteer Designer, Women in Data Science (WiDS) Ile-Ife (2019 – 2020): created design materials to promote data science education and women's participation in STEM.
- Community Development Service (CDS) Participant: took part in community projects during NYSC service.

CORE COMPETENCIES

Stakeholder communication • Administrative support • Project coordination • Research and documentation • Team collaboration • Problem solving • Time management
